

Ventura Water Local Groundwater Assistance Grant ATTACHMENT 6. BUDGET

Proposal Budget

A budget for the Proposal is shown in the table provided as part of this Attachment 6 (file 2 of 2), detailing individual planning tasks. Work Plan Tasks in this Proposal are numbered as follows:

- 1. Data Collection Strategy
- 2. Field Data Collection
- Report, Correlations and Water Balance Analysis
- 4. Stakeholder Involvement
- 5. Grant Management

Development of Budget Estimate

Budget estimates are based on actual budgets for similar work performed in the recent past and based on a 2-year data collection timeframe.

The budget for Tasks 1, 2 and 3 are based on the following inputs and estimates:

- Proposals from local consulting firms for comparable work performed in the past;
- Input from parties to the MOA, particularly the Ventura County Watershed Protection District, that commonly perform studies related to water resources within the Ventura River watershed; and
- Experience with similar work, such as field data collection coordinated with input from the City of Ventura and the Ventura River Watershed Council.

The budget for Stakeholder Involvement (Task 4) was estimated based on the Ventura River Watershed Council experience in outreach.

Estimates for the Task 5 (Grant Management) budget are taken from the extensive experience with grant preparation and management by the City of Ventura.

Costs for each planning component are reasonable and supporting information has been provided to justify the cost estimates. Supporting information includes labor rates, labor categories, and labor hours.

Consistency with Work Plan and Schedule

Both the Work Plan and Schedule provide discussions of the work items under the general categories outlined in the budget and are thus consistent with the budget items provided in this attachment.

Attachment 6 – Budget 6-1

Attachment 6: Budget for Upper Ventura River Basin Surface Water/Groundwater Interaction Study

| | | Consultant | | | | | | | | | City | | | | | |
|------|--|--------------------------------|----------------------------------|-------------------------------------|--------------------------|---------|-----------------|---------------|---------------|-----------------------|-------------------------|----------------|----------------------------|--------------------------------|------------|--------------------------|
| Task | Budget Category Rate/hr | Principal Engineer \$180 | Principal Hyd. Geol. \$180 | Assist. Hydro. Geol. \$120 | SW Tech Hydro \$90 | GW Tech | CAD/GIS \$85 | Admin \$60 | Costs (\$) | Task Costs (\$) | Mngt Analyst \$48 | Acct I \$42 | Utility Manager \$66 | Water Prod Super \$60 | City Costs | Requested Grant Funds |
| 1 | Data Collection Strategy (Consultant) | | | | | | | | | | | | | | | |
| | Review similar studies | 8 | 8 | | | | | | \$2,880 | | | | | | | |
| | Finalize flow transects sites w field verification (2 seasons), check access | 4 | 1 | | 6 | | | | \$1,440 | \$10,470 | | | | | | \$10,470 |
| | Finalize schedule/timing of monitoring along river | 2 | 2 | | | | | | \$720 | \$10,470 | | | | | | \$10,470 |
| | Finalize thresholds for monitoring along river | 4 | 4 | | | | | | \$1,440 | | | | | | | |
| | Prepare Technical Memorandum | 8 | 8 | | | | 6 | 10 | \$3,990 | | | | | | | |
| 2 | Field Data Collection (Consultant) 1,2 | | | | | | | | | | | | | | | |
| 2.1 | Groundwater Data | | | | | | | | | | | | | | | |
| | Groundwater levels (20 wells with dataloggers, 10 soundings) | 4 | 48 | 180 | | 416 | | 20 | \$65,440 | | | | | | | |
| 2.2 | Groundwater pumping data collection (quarterly) | | 8 | 48 | | | | | \$7,200 | \$152,800 | | | | | | ¢452.000 |
| | Aquifer testing | | 40 | 130 | | | | | \$22,800 | \$152,800 | | | | | | \$152,800 |
| | Surface Water Data | | | | | | | | | | | | | | | |
| | Surface flow & wq measurements (12 transects, ave 10 weeks/yr, 2 yrs) | 60 | 8 | 8 | 360 | | | 28 | \$47,280 | | | | | | | |
| | Weekly data summaries (12 weeks/yr, 2 yrs) | 12 | 12 | 24 | 24 | | | 12 | \$10,080 | | | | | | | |
| 3 | Report, Correlations and Water Balance Analysis (Consultant) | | | | | | | | | | | | | | | |
| | Finalize water balance methodology | 4 | 4 | 12 | 12 | | | | \$3,960 | | | | | | | |
| | Water balance for each reach each week of flow measurements | 4 | 4 | 48 | 192 | | 6 | | \$24,990 | | | | | | | |
| | Water balance for study area, each year | 8 | 8 | 16 | 16 | | | | \$6,240 | \$61,720 | | | | | | \$61,720 |
| | Draft Report - summary of memos, field results, recommendations. | 22 | 22 | 8 | 8 | | 12 | 20 | \$11,820 | | | | | | | |
| | Final Report - finalized report based on stakeholder input | 12 | 12 | 4 | 4 | | 10 | 10 | \$6,610 | | | | | | | |
| | Final Field Data report (electronic files with cover letter) | 4 | 4 | 30 | 30 | | | 6 | \$8,100 | | | | | | | |
| 4 | Stakeholder Involvement (City and Parties to MOA) | | | | | | | | | | | | | | | |
| | Provide data and analysis support | | | | | | | | | | | | | 40 | \$2,400 | |
| | Stakeholder meetings (kick off, 2 progress mtgs, and draft report) | | | | | | | | | | 84 | | 20 | | \$5,352 | \$7,752 |

| | Hours | 156 | 193 | 508 | 652 | 416 | 34 | 106 | | l otal Consultant | 324 | 36 | 60 | 60 | Total City | Total Project |
| | riodic | - 100 | | | | | | | | | | | | | | , |
| | | | | | | | | | | \$224,990 | | | | | \$24,624 | \$249,614 |
| | | | | | | | | | | | | | | | | |

Notes:

- 1. Estimates based on 2 years of data collection, 2 full years for groundwater monitoring and surface flow measuring at 12 transects 8 will go for 12 weeks and 4 for 6 weeks for an average of 10 weeks per year for two years.
- 2. Assume 1.5 hours per transect for surface flow measurements, and 4 hours per week for soundings or collecting data from datalogger.
- 3. Admin costs include reimbursable items, administration of grant, review of deliverables
